

# CERTIFICATE 2022

## Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control** and **certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second-hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

**Employees:** The organization is not involved in professional insertion, but relies on a strong network of volunteers. They are represented in the general assembly through their representative, who is chosen democratically. There are entities present that guard over the health and safety of the volunteers; a committee for prevention and protection at work (CPPT) and le groupe CESI.

**Governance:** The members of the general assembly are not remunerated and the 'one vote, one vote'-principle is applied. Decisions are taken with a majority of two thirds of the votes.

## Notification

### Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

### Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
