

CERTIFICATE 2022

Objective

Forum Ethibel is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

RESSOURCES is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second-hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

General remarks:

Activities: The Relais EST is focused on giving employees the voice and opportunity to participate in the decision-making process, the strategy and the organisation's future. 70% of the workers coming from disadvantaged background leave the Relais EST with a "positive outcome", meaning with a sustainable job of perspective of trainings. Le Relais Est did not give out dividends in 2021 or before, but their policy allows dividends to be given for 33% of the profit, which is not in line with criteria 1.2.

Employees: Employees are invited to be part of the Scop when they work long term. Trainings are organised on regular basis.

Governance: The Relais EST has its accountancy reviewed by an external party and is member of the network of Emmaus, that controls for good governance and practises. No discrimination policy was detected during the audit.

Transparency: The allocation and provenance of resources is not publicly available. The annual balance and profit & loss statement is online, but not accessible for free. There is no publicly available activity report where is stated where the donor can retrieve this information. This is not in line with criteria 8 of the Solid'R charter on transparency and communication to donors.

Documentation and additional information was transparently shared with the auditor.

During the on-site audit, the verifier had contact with a proportion of the employees to gain insights in their point of view.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2021, **Le Relais EST's activities are compliant with remarks with the SOLID'R Ethical Charter** that is based on the European criteria of social economy. **The non-compliant criteria must be met before the next audit.**

Notification

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
